

TEL AVIV UNIVERSITY

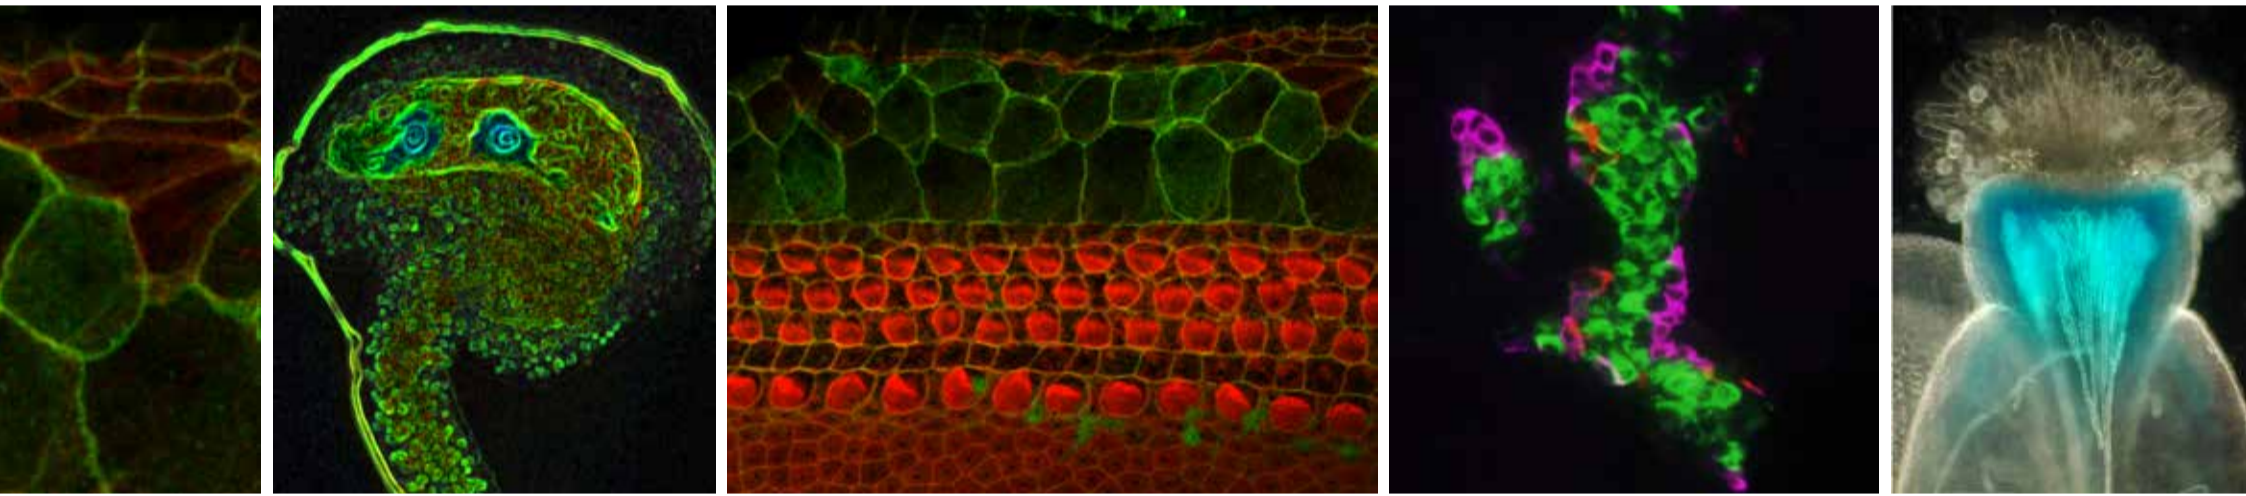

The Switzerland Institute of Developmental Biology

Symposium on

# Neural Development: from cortical patterning to cell-cell communication

The symposium will be held  
on **Sunday 15.6.2014** | 9:00-12:00 | **Shlezak Auditorium**

The Switzerland Institute prize for outstanding students  
will be awarded during the symposium

## Invited Speakers

### Prof. Victor Tarabykin

Institute Director

Institute of Cell Biology and Neurobiology  
Charité University Hospital, Berlin

***Molecular Control of Cell Fate and Axon  
Navigation in the Developing Neocortex***

### Dr. Eran Prelson

Head of the Mary Shapiro Kantor Laboratory  
Dept. of Physiology and Pharmacology  
Sackler Faculty of Medicine, Tel Aviv University

***Motor Neurons Require Motor Proteins:  
From Long Distance Signaling to Synapse  
Stability***

## Presentations by the winners of the Switzerland Institute prize for outstanding students

### Rachel Shukrun

Pediatric Stem Cell Research Institute, Sheba  
Medical Center. Sackler School of Medicine,  
Tel Aviv University

***A human integrin- $\alpha 3$  mutation confers  
major renal developmental defects***

### Ahuvit David

Sheba Cancer Research Center and Sackler  
School of Medicine, Tel-Aviv University

***STIL (SIL) role in centrosomal and primary  
cilia biology***

---

To coordinate meeting with Prof. Tarabykin please contact Ruth  
Ashery-Padan: [ruthash@post.tau.ac.il](mailto:ruthash@post.tau.ac.il)
